- In India, demand was stable across all end-use industries. Demand for flat glass, container glass and solar glass is robust
- In America, demand is flat and Europe experienced muted demand
- Competition from Turkey may decrease due to higher shipping costs
- In Rallis, while domestic demand had a positive bias, weak international demand impacted revenue growth. Profitability improved through pricing and cost management
- EBITDA was up by 30% in Q1FY25 as compared to PQ, mainly on account of Q1FY25 being a seasonal quarter for Rallis and better margins in India and the US
- Net debt increased as compared to PQ mainly on account of higher working capital loans and capitalization of leases
